

YOUR HOME FIRE **ESCAPE PLAN**

Plan how to exit your home quickly if there is a fire in your home, especially at night.

- 1 Draw a map or floor plan of your home on the grid below. Show all windows, doors and staircases if you're on an upper level.
- 2 Choose a designated 'safe room' which has a window and a phone, in case you cannot escape.
- 3 Choose and mark a meeting place outside in front of your building.

Don't wait for a fire! Practice your escape plan and keep those within your home safe. Remember to close all doors in your home and building to stop fire spread.

Think about the location of your front door keys and who will be responsible for children and vulnerable people.
